Anne Moir Brain Sex

Anne Moir has a Ph.D. in genetics, though is now a journalist. David Jessel is a journalist. They draw together a lot of research into differences between women and men (as of 1991) to support their claims: men and women ARE different (contradicting feminist desires), women shouldn't be ashamed of female traits (emotional intelligence, not being good at math, etc.).

Brainsex : The Real Difference Between Men & Women : Anne ...

Brain Sex was written to 'scientifically prove' that men are different from women. Very unscientifically however it was also written to prove a point. As such it bears too strongly the marks of triumph and self justification. While doing her Ph.D. in Genetics in the late 60s Anne Moir, one of the authors of the book, attended a lecture in which ...

BRAIN SEX: The Real Difference Between Men and Women, by Anne

Since both Moir and Jessel are journalists, the book is an entertaining synthesis for the layman. There is even a Brain Sex Test at the end of chapter three to determine how masculine or feminine the mentality of the reader is. For the more serious student who wishes to check original sources, Anne Moir, who has a Ph.D. in genetics, has ...

Brain Sex: The Real Difference Between Men & Women ...

Brain Sex, Anne Moir and David Jessel, Carol Publishing Group, 1991, 242 pp. Men are different from women. To maintain that they are the same in aptitude, skill or behaviour is to build a society based on a biological and scientific lie. With these brave words begins a remarkable book by two journalists, Anne Moir and David Jessel.

Sex of the Brain: Why Men and Women are Different ...

BRAIN SEX: The real difference between men and women by Anne Moir, Ph.D. and David Jessel. Dell Publishing (paperback), New York, 1992. Men are different from women. They are equal only in their common membership of the same species, humankind.
