### IDEA 10 - AuditWare

Commonly this only occurs when opening a CaseView document that is part of a purchased template, either from CaseWare or a third party vendor. The document is attempting to run a script which is damaged, missing, or the program's access to the script is otherwise blocked.

### Script Errors When Opening CaseView Documents — CaseWare ...

One of the items that the IDEAScripting dialog lacks is a date picker. I recently saw a post on the IDEA forum that they had the script for one but for some strange reason weren't releasing it on the scripting section, so I decided to try and create a date picker for my use and anyone else that wants to use it.
