An option you purchase is a contract that gives you certain rights. Depending on the option, you get the right to buy or the right to sell a stock, exchange-traded fund (ETF), or other type of investment for a specific price during a specific period of time. Investors and traders use options for a few different reasons. For example:

### Options trading for beginners | Learn more

If you properly learn the option trading strategies taught in the course you'll discover how to make money regardless of the direction of the stock market (up or down). Trading stock options can be fun and it can also be risky. If you trade the right way the rewards are great, but if you don't you'll lose money (trust me, I know from experience).
