John Gribbin, an acclaimed science writer and astrophysicist, tackles a number of subjects in his new book, In Search of the Multiverse. People are often sent running for the hills when they hear terms like quantum mechanics, string theory, and not to mention the important differences between general and special relativity.

in the UK of a new book by John Gribbin promoting this to the public: In Search of the Multiverse. Gribbin expounds at length the usual string theory anthropic landscape/multiverse ideology, carefully avoiding introducing any mention of the fact that there might be quite a few scientists skeptical about it.
