Indigo: The Color that Changed the World by Catherine LeGrand

Indigo: The Colour That Changed the World', a new book by Catherine Legrand published by Thames & Hudson(ISBN 978 0 500 516607), offers a fascinating documentation of the importance of this dye created from variants of the indigofera plant, tracing indigo's history and cultivation from the Golden Triangle to Central America, to demonstrate why it has been so important and renowned in multiple textile practices for so many centuries.

Indigo: The Colour That Changed the World | Yatzer

Unfortunately, Catherine McKinley's "Indigo" is another one of those books that could go grossly overlooked because it's informative. Truly her search for indigo revealed the severe tie between cloth and world history everywhere. A reader will get much more than the story of indigo in the world of textiles.

Indigo: In Search of the Color That Seduced the World ...

Indigo is a deep and rich color close to the color wheel blue, as well as to some variants of ultramarine, based on the ancient dye of the same name. The word indigo comes from the Latin for "indian", as the dye was originally imported to Europe from India. It is traditionally regarded as a color in the visible spectrum, as well as one of the seven colors of the rainbow: the color between violet and blue; however, sources differ as to its actual position in the electromagnetic spectrum. The firs
