IBD Quality Improvement - Nationwide Children's Hospital

Given the complexity of management of inflammatory bowel disease (IBD), medical societies such as the American Gastroenterological Association (AGA) and Crohn's and Colitis Foundation of America (CCFA) have established measures aimed at defining quality of care. In 2011, the AGA proposed 10 quality metrics for IBD, eight of these measures relate to outpatient management and two focus on inpatient management.

*Quality Improvement in IBD Care: The Influence of a QI ...

Abstract: Since inflammatory bowel diseases (IBD) are chronic disorders with typical remission and relapses and no cure, maintaining high quality of provided healthcare to patients with IBD plays a major role in the management and reducing disease-related morbidity.

Quality improvement in healthcare for patients with ...

As a result of this quality improvement project, we have changed our referral handling and triage process. Patients with suspected IBD, including those with a calprotectin > 100ug/g, 30 are sent straight-to-test. Because gastroenterologists, hepatologists, endoscopy nurse specialists and colorectal surgeons provide these tests, to prevent delay in IBD treatment, all new endoscopic diagnoses of IBD are reviewed in our weekly multi-disciplinary team meeting and each patient is allocated ...

Quality improvement project identifies factors associated ...

Immunosuppressed patients with inflammatory bowel disease (IBD) are at risk for vaccine preventable illnesses. Our aim was to develop a quality improvement intervention to measure and improve the proportion of immunosuppressed IBD patients receiving recommended vaccinations.

Quality Improvement Project Significantly Increased the ...

Probiotics, prebiotics and dietary fibre supplements are novel alternative therapies in the treatment of inflammatory bowel disease (IBD). These agents help to alter the microbes in the gut and help offset levels of inflammation. In addition, they are safer and increasingly cost-effective in comparison to pharmaceutical therapies used for IBD.
