and are produced through sweat, saliva, and urine. Sexual Attraction And Pheromones

The Science Behind Pheromones Attraction | Betterhelp

The Biology of Attraction Much of courtship and mating is choreographed by nature. In fact, nature designed men and women to work together.

The Biology of Attraction | Psychology Today

The truth is, attraction isn't random. Science can explain a lot of why we feel what we feel for a person who catches our eye. As it turns out, even when he isn't aware of it, a man often gets romantically involved with a woman he sees has certain qualities that are biologically coded to mean "healthy" and, by extension, "fertile."
