### Views and Experiences with End-of-Life Medical Care in the ...

Experience is the process through which conscious organisms perceive the world around them. Experiences can be accompanied by active awareness on the part of the person having the experience, although they need not be. Experience is the primary subject of various subfields of philosophy, including the philosophy of perception, the philosophy of mind, and phenomenology.

### Experience - Wikipedia

This is because if all the experiences only reflected people's preconceived ideas then it would support the notion that an NDE is simply based upon an individual's own background rather than being a universal phenomenon that transcends cultural and religious views, and it would have little scientific interest.
