Your doctor should be a valuable source of information and support. However, there are things your doctor may not tell you that you need to know so you can stay healthy. What are the things your doctor may not tell you about menopause? “You may find that you are much more fatigued than before, even with the same amount of sleep.

These are the Things Your Doctor May Not Tell You About

...

“The reality is that treating menopause may not be as profitable as delivering babies or doing surgery,” says Allmen, who transitioned to midlife medicine after a decade in the delivery room. “The younger generation of doctors are less interested in the aging population, where the issues require more time but also offer less compensation.”

Doctors Don't Know How to Treat Menopause Symptoms
