Strategy formulation and implementation is a continuous and systematic process for making decisions about the organization future, developing the necessary procedures and operations to achieve that future and determine how success is to be measured (Simiyu, 2013). It is a systematic process through which an organization argues on and builds on ...

(PDF) STRATEGY IMPLEMENTATION/EXECUTION - Academia.edu

Although the topic of implementation may not be the most exciting thing to talk about, it's a fundamental business practice that's critical for any strategy to take hold. The strategic plan addresses the what and why of activities, but implementation addresses the who, where, when, and how. The fact is that both pieces are critical to success.
