CCTV Security Camera Lens Guide - CLEAR IT SECURITY

The simplest CCTV lens is a piece of glass (or plastic) to focus the light from the outside world onto the camera's imaging sensor. This lens' only adjustable mechanism is its focus-ring, part of the barrel body, which you turn until your image is as clear as possible.

the field of surveillance view and zoom level that the camera provides. The camera lenses that CCTV Camera Pros supplies generally range from 2.5mm to 100mm. The larger the size of the lens, the more narrow and zoomed in the field of view is. Some of our fixed lens cameras come standard with a 3.6mm or 6mm lens.
