The Bible does not explain how much variation can occur within a kind. Neither does it contradict the fact that the different kinds of animals and plants created by God can vary as they breed or adapt to new environments. Although some view such adaptations as a form of evolution, no new kind of life is produced.

Did God Use Evolution to Create the Different Types of Life?

Nuclear Size: The size of the nucleus compared to the size of the atom in which it resides is so small that it has invited a number of interesting comparisons. For example, the space inside an atom can be compared to the space in the solar system in a scale model. Scaling the gold nucleus suggests that the atomic radius is some 18,000 times the size of the nucleus.

Nuclear Notation - Georgia State University

There is a wide debate within the conservative movement over how differing ideologies can fall under one common category. Certain conservatives may doubt the legitimacy of others, but there are arguments for each view. The following list attempts to clarify the discussion, focusing on conservative politics in the United States. Some may feel the list falls short because conservatives can find ...
