Introduction "Life is like a box of chocolates—you never know what you're going to get" (Forrest Gump in Forrest Gump, 1994).. The "Forrest Gump Chaos Theory" states that in a population of chocolate product (i.e., a box of chocolates) the frequency of a specific outcome (i.e., picking a caramel filled, creme filled, nougat filled, etc., chocolate candy) is unknown and hence unpredictable.

Theory of Colours (German: Zur Farbenlehre) is a book by Johann Wolfgang von Goethe about the poet's views on the nature of colours and how these are perceived by humans. It was published in German in 1810 and in English in 1840. The book contains detailed descriptions of phenomena such as coloured shadows, refraction, and chromatic aberration.. The work originated in Goethe's occupation with ...

Out of Rawls' focus on fairness within social contract theory comes more feminist approaches, like that of Jean Hampton. In addition to criticising Hobbes' theory, Hampton offers another feminist perspective that focuses on extending the effects of the social contract to interpersonal relationships.
