FEEL (Focused Echocardiography in Emergency Life Support ...
Life support refers to the treatments and techniques performed in an emergency in order to support life after the failure of one or more vital organs. Healthcare providers and emergency medical technicians are generally certified to perform basic and advanced life support procedures; however, basic life support is sometimes provided at the scene of an emergency by family members or bystanders ...

Life support - Wikipedia
Support of Ventilation. The method of advanced airway support (endotracheal intubation versus laryngeal mask versus bag-mask) provided to the patient should be selected on the basis of the training and skill level of providers in a given advanced life support (ALS) system and on the arrest characteristics and circumstances (eg, transport time and perhaps the cause of the arrest).

Part 10: Pediatric Advanced Life Support - Circulation
19. Call the main course and assure all the guests have proper and clean silverware in front of them. 20. Remove the bread, the butter, and the butter plates from the table if the guests are not going to use any more bread with their main course. 21. Assure that the main course is served on time! 18 to 25 minutes (for well-done steaks).
