The dual-bag bagging system that attaches to the rear of most models of John Deere lawn tractors allows operators to mow large areas of lawn without having to stop and empty the clippings from the bags. Before you can use the optional bagger attachment, however, you must first assemble it into the proper position.

John Deere Rear Bagger Manual - SecuritySeek

The John Deere Grass Bagger comes in two mower deck sizes, a 42-inch and a 48-inch. Both have a dual bagging system. This means that there are two bags on the rear of the mower that will collect the grass clippings. Having a mower that collects grass clippings in a bag will save you the need of raking your lawn.

Mounting Instructions for a John Deere Grass Bagger | eHow

The rear bagger came unassembled and took about a half hour to put together on the back of the mower. I decided to take photos for all my loyal readers to enjoy. Heck you never know...someone might actually "Google" how to put together a 7-bushel rear bagger for a John Deere X300 and my site may pop up. I'm such a genius.
