Language Planning In Multilingual Contexts

This volume examines the sociocultural factors that influence language choices and uses in the multilingual country of Luxembourg. Patterns of language use within and across communities are viewed in terms of interrelationships among language policy intent, implementation, and experience. The study considers the ways in which the language and social experiences within low socioeconomic ...

Language planning in multilingual countries: The case of ...

The paper argues that a typology of multilingual contexts that witness different kinds of development of languages and national identities has to be viewed as a cline. At one extreme lie Type A societies in which 'language' as an entity is anthropomorphized by its speakers, so much so that in some communities, it is revered and regarded as an object of worship.

Language planning (also known as language engineering) is a deliberate effort to influence the function, structure or acquisition of languages or language varieties within a speech community. Robert L. Cooper (1989) defines language planning as "the activity of preparing a normative orthography, grammar, and dictionary for the guidance of writers and speakers in a non-homogeneous speech ...

Language planning - Wikipedia

Translation and translanguaging are natural and complementary phenomena that occur in multilingual societies. They are advocated as valuable pedagogies that not only develop the ability to operate between languages but also, and most importantly, nourish creativity and a multilingual sense of self. They permit to co-construct meanings and share knowledge, skills and experiences as well as ...
